

## Rangoli Competition & Diwali Celebration

On **16th October**, the **Civil Engineering Department** was transformed into a vibrant canvas as the **Association of Civil Engineers (ACE)** organized the Rangoli Competition cum Pre-Diwali Celebration. The space came alive with colours, creativity, and festive warmth, setting the perfect tone for the upcoming festival.

Students participated with great enthusiasm, bringing together imagination and precision. As rangoli designs slowly took shape, each pattern told its own story-rooted in tradition yet enriched with innovation. The atmosphere was filled with focused creativity, cheerful conversations, and a shared sense of joy.

More than a competition, the event became a celebration of unity and togetherness. The spirit of Diwali reflected not only in the colours on the floor but also in the smiles, collaboration, and encouragement shared among participants. It beautifully highlighted the artistic side of engineers, beyond equations and structures.

The event was conducted under the guidance of our respected **Head of Department, Dr. Deepesh Singh Sir**, and the valuable support of **Convener, Ms. Shivani Koshta Ma'am**, along with faculty members. Their encouragement played a key role in making the celebration meaningful and memorable.

The day concluded with hearts full of happiness and memories as bright as the diyas reminding us that engineers don't just build structures, they also create moments of creativity, harmony, and joy.
