Report on Value added course in advanced footwear design workshop By NIFT- KLCRC in KLC Complex,Banther dated 28 August to 5 September

A Value-Added Course on “Advanced Footwear Design” was organized at the KLC (Kanpur Leather Cluster) Complex, Banthar, Unnao. The workshop aimed to provide students with **hands-on training and exposure** to modern techniques, design tools, and industry standards in the field of bag, footwear design and development. This initiative bridged the gap between theoretical classroom learning and practical industrial application, preparing students for the dynamic and innovation-driven global footwear market.

Activities Conducted:

- Designing of shoes by shoes master software.
- Hand on exposure in manual shoe piece cutting & stitching.
- Advance knowledge in design processing on many leather goods & product.
- Designing of Bags with the help of Adobe software.
- Manual manufacturing of duffle bag under guidance of NIFT faculty.

Students gained Practical knowledge of **design, pattern making, and material handling** and got ability to apply **CAD tools** for footwear modeling and visualization and understood **industrial standards and manufacturing workflows**
